# **DB** series

# INFILED

**DB** Series is the new benchmark for super black LED screens. Designed specifically for fine pixel pitch rental applications, the DB Series utilises ultra-black masking material and exclusive black LEDs to produce a new level of contrast for LED screens.

High Greyscale

Levels

Light Weight

Rental

High Contrast

Fast Assembly

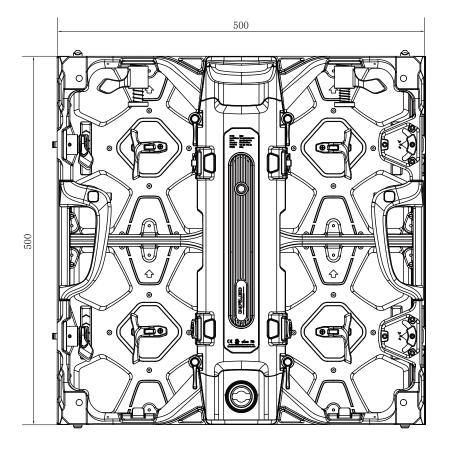

Deep Black

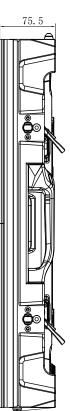

With high grey scale levels, a fast refresh rate, and the highest quality components, the DB Series provides the ultimate LED screen picture quality.

The DB Series was designed with an emphasis on ergonomics and usability. The panels are of a modular design built around a robust die-cast aluminum frame, with inbuilt feet and edge protectors to prevent physical damage during assembly. The DB Series comes equipped with a fast locking system for rapid construction, a curving system allowing both convex and concave configurations, and cable free power and data connection (optional) for the ultimate clutter free installations.
